

Turn Live Webinars Into Real Business

How Agents Can Use Zoom Meetings
to Educate Prospects, Build Trust,
and Win More Clients

A simple live webinar can position your
expertise, create engagement, and turn
conversations into appointments.

Edmund's Mastermind | Bogen.ai | Prompt to Close

THE EVERGREEN SALES MACHINE

YOUR BEST HOUR, CLONED — SELLING AT 8 PM

Complete Implementation Workbook

Edmund's Mastermind & Group Coaching
AI-Run Webinar & Seminar Funnels

Live on Zoom · Wed, June 24, 2026 · 9:00 AM ET | Fri, June 26, 2026 · 12:00 PM ET

EDMUND BOGEN & TEAM | BOGEN.AI | PROMPT TO CLOSE

YOUR MONEY-MAKING MISSION

Why You're Here

To stop renting your income one hour at a time. You'll learn to clone your single best presentation into a funnel that registers, reminds, presents, handles objections, and books appointments — 24/7, without you in the room.

Your Goal Today

Walk out with one validated webinar topic, an AI-generated funnel outline on that topic, and a clear 7-day plan to get your evergreen link live with your first 10 invitations sent.

Success Metric (Next 7 Days)

One topic chosen · full funnel generated with AI · presentation recorded (Zoom alone counts) · evergreen link LIVE · 10 invitations sent. That is a working sales asset by this time next week.

WORKSHOP OVERVIEW: YOUR 24/7 PROFIT TOOLKIT

The three systems you'll master today — each one removes you from a job you're currently doing live, by hand, one prospect at a time:

System	What It Replaces	The Payoff
1. The Always-On Webinar Engine	Giving the same presentation live, repeatedly	Record once, sell on autopilot
2. The AI Funnel Copywriter	Hiring a copywriter / staring at a blank page	Reg page + 5 reminder emails in minutes
3. The 24/7 Objection Handler	Waiting until you're free to answer & close	AI answers and books at peak interest

The Edmund Rule This Session Lives By

"Never do what you can't outsource. Never outsource what can be automated." Your best sales hour is the single most automatable asset you own. Today you build the machine that runs it.

SYSTEM 1 — THE ALWAYS-ON WEBINAR ENGINE

The Time-for-Money Trap Killer

What this means for your bank account:

- Your A-game presentation reaches every prospect — not your tired Thursday version
- Your reach stops being capped by hours in a day
- The asset works the night shift: prospects convert at 8 PM while you're at dinner

THE TECHNOLOGY BEHIND YOUR ALWAYS-ON ASSET

An evergreen webinar platform takes one recording and serves it on-demand or on a recurring "just-in-time" schedule (e.g., a session starting every 15 minutes). The prospect registers, gets a confirmation and reminders, and watches a polished presentation that feels live — while the system tracks attendance, watch time, and who hit your offer.

The shift in 2026: platforms now ship with **AI builders** that assemble the registration page, schedule, emails, and even chat behavior from a single topic input — collapsing what used to be a week of setup into a single working session.

WHY THIS CHANGES EVERYTHING FOR AN EXPERT

Live presenting is linear: one hour of your time equals one room of prospects, then it's gone. An evergreen engine is leveraged: one hour of recording sells for months. You move from being the sales machine to *owning* one.

THE EARLY-ADOPTER ADVANTAGE

Most agents still treat the webinar as a live event they dread scheduling. The few who recorded it once are now booking consults and listing appointments around the clock. The moat widens every month they run it and you don't.

REAL REVENUE APPLICATIONS

- Seller "home value" workshop that books listing appointments overnight
- Buyer masterclass that fills your consult calendar without live sessions
- Relocation seminar capturing out-of-state buyers in every time zone
- Entrepreneur masterclass selling a service or course on autopilot

Pick Your Platform (AI-builder webinar tools)

eWebinar — easiest for on-demand + scheduled replays, strong automation. **WebinarKit** — evergreen + funnels, budget-friendly. **EasyWebinar** — live + automated hybrid, more robust. Pick one. Don't shop for a week — the tool is not the bottleneck, the recording is.

SYSTEM 1 — PROFIT-GENERATING PROMPTS

Paste these into Claude or ChatGPT. Replace the brackets with your business.

CHOOSE & VALIDATE YOUR TOPIC

Act as a direct-response strategist. My business: [real estate / your niche] in [market]. My ideal prospect: [seller / buyer / relocating buyer / client type]. Give me 5 webinar topic ideas that (1) solve an urgent, specific problem this prospect has right now, (2) naturally lead to my offer of [a consult / listing appointment / your service], and (3) would make them register tonight. For each, write the title, the core promise, and the one objection it overcomes.

BUILD THE 40-MINUTE TEACH STRUCTURE

Build a 40-minute automated webinar outline for the topic: "[CHOSEN TOPIC]". Use the "3 Secrets" frame. For each secret give: the teaching point, the proof/example, and the belief it shifts. Add a 3-minute open that hooks and promises, and a 7-minute close that transitions to my offer: [OFFER]. Keep it genuinely valuable – it must teach, not pitch for 40 minutes.

SLIDE-BY-SLIDE TALKING POINTS

Turn the outline above into slide-by-slide talking points. For each slide give: the headline (6 words max), 2-3 bullets of what I say out loud, and a note on what's on screen. Mark where I show proof, where I take a breath, and where the offer transition begins.

THE OFFER / CTA BLOCK

Write the offer section for the end of my webinar. My offer: [consult / listing appointment / service / course at \$___]. Stack the value, name the transformation, give one clear next step (book on my calendar), and handle the top 3 objections: [price / timing / "I'll do it myself"]. No fake scarcity. Let the value earn the close.

SYSTEM 1 — YOUR SUCCESS NOTES

During the live build, capture this for YOUR business:

My chosen webinar topic:

My offer (what they book or buy at the end):

My 3 secrets / 3 teaching points:

Platform I'm committing to:

☐ eWebinar ☐ WebinarKit ☐
EasyWebinar

Recording method:

☐ Zoom solo ☐ Loom ☐ Platform built-in

The math that matters

Hours I currently spend presenting live per month: _____

My time value per hour: \$ _____

Monthly hours reclaimed once evergreen: _____

Questions to ask during Q&A:

SYSTEM 2 — THE AI FUNNEL COPYWRITER

The Blank-Page Killer

The registration page and the reminder emails decide whether anyone actually shows up. This is where most funnels quietly die — and where AI gives you the biggest, fastest win. The reminder sequence is the single largest lever on attendance.

WHY THE REMINDER SEQUENCE IS THE WHOLE GAME

Getting the registration is easy. Getting the *attendance* is the money. A well-built 5-email sequence — confirmation, value tease, the "why now," the day-of nudge, and the "starting soon" — is the difference between a registrant who shows and one who forgets you exist. AI writes all five in minutes, in your voice.

THE CALENDAR / CRM HANDOFF

When a prospect books, the platform passes them to your calendar (Calendly / Google) and your CRM (Follow Up Boss / your database). No lead falls through. The machine doesn't just present — it routes the prospect to the close.

REGISTRATION PAGE COPY

Write a high-converting registration page for my on-demand webinar: "[TOPIC]". Audience: [prospect]. Include: a headline, 3 bullets of what they'll learn, a "who this is for" line, a short bio positioning me as [credibility], and a register CTA. Tone: confident, direct, no hype. Label it clearly as an on-demand training.

THE 5-EMAIL REMINDER SEQUENCE

Write a 5-email reminder sequence for registrants of "[TOPIC]". Email 1: instant confirmation + what to expect. Email 2: a valuable teaser that builds anticipation. Email 3: the cost of NOT solving [problem]. Email 4: day-of reminder with the access link. Email 5: "starting soon" nudge. Each under 150 words, my voice, one clear link. No fake countdowns.

SYSTEM 2 — YOUR FUNNEL MAP

My registration page headline:

My 5 reminder emails — one-line purpose each:

1. Confirmation: _____
2. Value tease: _____
3. Cost of inaction: _____
4. Day-of link: _____
5. Starting soon: _____

My calendar tool

☐ Calendly ☐ Google ☐ Other: _____

My CRM handoff

☐ Follow Up Boss ☐ Other: _____

Where the booked appointment lands (the close step):

SYSTEM 3 — THE 24/7 OBJECTION-HANDLING AI CHAT AGENT

The "Wait Until I'm Free" Killer

Interest is perishable. The old model makes a hot prospect wait three days for you to call back — by then they're cold. An AI chat agent trained on your offer answers questions and handles objections *during* playback, then books the appointment at the exact peak of interest.

WHAT THE AGENT ACTUALLY DOES

It sits beside the player. When a prospect types "what if my home needs work?" or "how much do you charge?", it answers in your voice, reinforces the offer, and drops the calendar link. It never sleeps, never gets tired of the same question, and never lets a ready buyer drift.

TRAIN IT ON YOUR TRUTH

The agent is only as good as what you feed it: your offer, your FAQ, your real objection answers, and your booking link. Garbage in, garbage out — so you'll script the answers yourself and let AI deliver them tirelessly.

BUILD YOUR OBJECTION BANK

List the top 10 questions and objections a [seller/buyer/client] has before booking [my offer]. For each, write a 2–3 sentence answer in a confident, warm, no-pressure voice that resolves the concern and points to booking a [consult/appointment]. These will train my webinar chat agent.

WRITE THE AGENT'S SYSTEM PROMPT

Write a system prompt for an AI chat agent embedded in my on-demand webinar for "[TOPIC]". Role: answer viewer questions using my objection bank, stay in my voice [describe], never invent facts, and guide ready prospects to book at [calendar link]. If it can't answer, collect the email and promise a human follow-up. Be helpful first, never pushy.

SYSTEM 3 — OBJECTION BANK + CREDIBILITY RULES

My top 3 objections + my answer:

Objection 1: _____

Objection 2: _____

Objection 3: _____

⚠ The One Risk That Kills These Funnels

Two ways to destroy trust instantly: (1) fake "live" countdown gimmicks and "only 3 seats left" timers on an on-demand replay — people see through it and report it; (2) a "teach" that's really a 40-minute pitch in disguise. Both torch your credibility and your brand.

The Credibility Rules (non-negotiable)

- **Label it on-demand.** Honest framing converts better long-term and protects your name.
- **Teach real value.** Give them a genuine win even if they never buy.
- **Let the offer earn the close.** Value first; the pitch is the natural next step, not the whole show.

YOUR PLUG-AND-PLAY TOPIC + OFFER COMBOS

Pick one. Don't build four. Pick the one closest to the income you want next quarter.

Combo	Webinar Topic	The Offer / Booking
A • Buyer	"First-Time & Move-Up Buyer Masterclass: How to Win in This Market"	Book a buyer strategy consult
B • Seller (the hero)	"What's My Home <i>Really</i> Worth in This Market?"	Book a listing appointment / valuation
C • Relocation	"Relocating to Florida: The Out-of-State Buyer's Playbook"	Book a relocation consult
D • Entrepreneur	"[Your Signature Masterclass]"	Sell a service or course

Why Combo B is the highest-leverage for most agents

Sellers searching "what's my home worth" are the most valuable, most underserved audience you have. A workshop that answers that honestly — then offers a precise valuation — books listing appointments while you sleep. This is your night shift. Start here unless you have a strong reason not to.

The combo I'm committing to today:

Reality check for agents (read this)

Evergreen webinars reward experts who teach. If you're a pure transactional agent, the seller-workshop-to-listing-appointment play is your fit — not a six-figure "info-product" funnel. Match the model to your business, not the hype.

THE "WEBINAR-IN-A-DAY" MASTER PROMPT

The one prompt that generates your full funnel from a single topic input. Paste it, fill the brackets, and let it run section by section.

★ COPY THIS ENTIRE PROMPT

You are my evergreen webinar funnel builder. I'm a [role: e.g., real estate broker] serving [audience] in [market]. My offer is [consult / listing appointment / service / course at \$___]. My single topic is: "[TOPIC]".

Generate my complete funnel in five labeled sections:

- 1) PRESENTATION OUTLINE – a 40-minute on-demand webinar using the "3 Secrets" frame: a 3-min hook open, three teaching secrets (each with point, proof, belief shifted), and a 7-min offer close. It must teach genuine value, not pitch for 40 minutes.
- 2) SLIDE-BY-SLIDE TALKING POINTS – for each slide: a 6-word headline, 2-3 spoken bullets, and what's on screen.
- 3) REGISTRATION PAGE COPY – headline, 3 "what you'll learn" bullets, who-it's-for line, short credibility bio, and a register CTA. Label it as on-demand.
- 4) 5-EMAIL REMINDER SEQUENCE – confirmation, value tease, cost-of-inaction, day-of link, starting-soon. Each under 150 words, in my voice, one clear link, no fake countdowns.
- 5) AI CHAT AGENT BRIEF – the top 10 objections with answers, plus a system prompt that books ready prospects at [calendar link] and stays honest.

Ask me 3 clarifying questions first if anything is missing. Then produce all five sections.

How to run it

Answer its 3 questions. Then take each section into your tools: outline & slides into your recording, reg page & emails into your webinar platform, agent brief into your chat tool. One prompt, one afternoon, one machine.

YOUR 7-DAY BUILD PLAN

The measurable output: evergreen link LIVE + 10 invitations sent by Day 7.

Days 1-2 — Decide & Generate

- ☐ Choose ONE topic + offer combo
- ☐ Run the Webinar-in-a-Day master prompt
- ☐ Review & edit all 5 sections in your voice

Days 5-6 — Wire & Train

- ☐ Connect calendar + CRM handoff
- ☐ Install & train the AI chat agent
- ☐ Test the full flow as a fake prospect

Days 3-4 — Record & Build

- ☐ Record the 40-min presentation (Zoom solo is fine)
- ☐ Create webinar in your platform; upload recording
- ☐ Paste in reg page copy + 5 reminder emails

Day 7 — Launch

- ☐ Publish the evergreen link
- ☐ Send 10 invitations (database, social, sphere)
- ☐ Confirm first registration came through

My measurable Day-7 outputs

Evergreen link: _____ Invitations sent: _____

YOUR PROFIT COMMITMENT CONTRACT

Based on today's session, I commit to building my evergreen sales machine.

My topic + offer combo: _____

My platform: _____

Recording day: _____ **Launch day:** _____

Hours per month I'll reclaim once this runs: _____

Appointments/sales I expect from it in 90 days: _____

Accountability partner

Name: _____

Check-in day/time: _____

7-Day review

Date: _____

Link must be LIVE by: _____

Signature: _____ Date: _____

LIVE SESSION NOTES + ROI TRACKER

YOUR ALWAYS-ON MANIFESTO

"While my competitors drive across town to give the same presentation for the hundredth time, my best hour is already recorded — registering, presenting, and booking appointments at 8 PM while I'm at dinner with my family. I don't trade time for dollars anymore. I built the machine. The machine works the night shift."

My personal always-on statement:

Keep Building With Edmund

We go deeper on systems like this inside **Edmund's Mastermind**. For done-with-you AI builds, that's **Bogen.ai**. And the full operating playbook lives in my book, **Prompt to Close**. Your best hour is the most automatable asset you own — go clone it.

© 2026 EDMUND'S MASTERMIND — YOUR AI-POWERED EVERGREEN SALES SYSTEM

Because Trading Time for Dollars is NOT an Option!
